

Gaschak S.P. Finds of Animals of the Red Book of Ukraine (2009) on the Territory of the Chernobyl Exclusion Zone and adjacent area of Kyiv and Chernihiv regions // Materials for the 4th edition of the Red Book of Ukraine. Animal world / Series: "Conservation Biology in Ukraine". – Iss. 7, Vol. 1. - Kyiv, 2018. - P. 180–191.

The material was collected by the author during his own research in the exclusion zone in 1990-2017. The material includes both own observations and findings (most of them) and the results of observations of other researchers (parcels are given). Some of the information was the basis for the creation Chernobyl Radiation and Ecological Biosphere Reserve.
