

Zhila S. Bobcat in the Ukrainian Polissia: population status and distribution // Visnyk of L'viv Univ. Biology series. - 2002. Is. 30. - P. 61-64.

Review of all known data on distribution, ecology and quantity of bobcat in Polissia is presented. Dynamics of species range restoration in Polissia is considered. There are detailed data on state-of-the-art of bobcat populations at different Polissia regions, on the reproduction biology, territorial structure, hunting, population's density, etc.
